## Hydraulic Cooling Fans

- Power, effective, reliable cooling system
- Hydraulic power pack efficiently powers 5 fans

### Fan Specs:

- Massive, cooling effect through misting
- Lifting frames are engineered and tested to DNV standards
- Air delivery capability – **up to 30,00 CFM**
- Reliable closed loop hydraulic operation
- One power-pack remotely powers up to 4 fans from up to 200'
- Fans take up less space than traditional bulky fans
- Explosion proof – can be placed anywhere on rig
- Mist cooling with closed water filtration system – unaffected by dust
- Separate controls for each fan – independent water & power control.
